

IMMUSCO VISION/CALIBRATION SERVICES

IMMUSCO is offering consultancy services to improve quality assurance and quality control of the product's through calibration, standardization, testing, process validation and evaluation of engineering products. IMMUSCO also possesses the capability to help steel industries in selection and service's of quality control tools and equipments i.e Emission spectro meter, tensile testing machine, bending machine, hardness tester and impact tester, temperature gauge, pressure gauge, gauge block, balances and host of other testing and measuring tools.

Our services are not limited only to provide calibration, material testing and evaluations service's but we offer technical assistance in handling shop floor problems by providing rectified measures to ensure continues and smooth operation/production of the mill's/plant.
